**Statement of each district's population, including the deviation of each district's population from the ideal district population.**

WHEREAS, certain deviations and standards must be met according to Iowa Code Section 42.4, these are the deviations:

Total Mitchell County census, 10,565 according to the 2020 census.

Ideal size of supervisor's districts – 2,155.

First District census	2122 - 2113 (ideal) = +9
Second District census	2120 - 2113 (ideal) = +7
Third District census	2118 - 2113 (ideal) = +5
Fourth District census	2115 - 2113 (ideal) = +2
Fifth District census	2090 - 2113 (ideal) = -23
Total deviation from ideal	46

There is no district that deviates from the 1% of the ideal district.

The overall deviation is not in excess of the 1% of the total census.

The largest district divided by the smallest = 1.02 and therefore meets that criteria.
