Discussed with County Attorney Mark Walk a claim that a county employee's HIPAA rights were infringed upon. It was reported the employee discussed their private information in front of others and then was upset that others further discussed and passed on what was first publicly disclosed. When a person publicly discloses information it then is public knowledge. It was recommended that employees don't discuss any of their medical problems with others.

A letter authorizing the purchase of a new fire truck by the East Lincoln Township for the Riceville Fire Department was considered null and void.

After discussion, motion by Walk, second by Voaklander to authorize the Chair to sign Resolution #760-09 stating that the BOS takes no position on a notice of voluntary annexation of property into the City of Stacyville. Roll call vote: all ayes.

Discussed the Sheriff Department K-9 dog. It was reported that there have been concerns from the public that the K-9 dog has attacked other dogs and in this process bit a person. County liability is a major concern. The Board expressed concerns on how the dog was purchased and the soliciting of private funds for the dog. Members of the public say tax monies should be used for public purposes since donation funds are limited and many worthy groups have a need for limited private donations. The Board will request Sheriff Younker to provide the names of all who may have been involved in any issue with the K-9 dog and the Board will conduct its own investigation. Also discussed with County Attorney possibility of the Board to pass county ordinances prohibiting the ownership of a drug dog and the private solicitation of

funds when county tax monies should be used.

Discussed with County Engineer Jim Hyde and Assistant Engineer Rich Brumm the bridge that collapsed over Otter Creek. Also present were Loren and Kurt Meyer. The Engineer stated that the bridge is posted at 9 ton single lane gross vehicle weight and has an average of 25 vehicles per day. Discussed options for replacing the bridge and estimated costs. The incident is being investigated by the Sheriff's department.

Discussed a property nuisance in the Village of Mona. If not cleaned up in two weeks the County will enter the property and do the clean up. The property owned will be assessed the costs for the clean up on their property taxes.

Jim reported that the cold-in-place is done on T-26 and paving will begin again on Wednesday by Little Cedar. Discussed the joint Worth/Mitchell Drainage District 1 & 22. Engineer said that questions pertaining to the drain should be directed to him.
